### Have your group included on the 2011 Erie Pride Shirt

by Mike Mahler

The Pride Planning committee is working hard on events for this summer, including the Pride Picnic on June 11 and the March/Rally on August 27. We plan on selling T-shirts that will feature a new logo for Erie Pride, and a listing of area special events. We are looking at organizations and groups being able to have their names included as well on the T-shirt.

This is where you come in! Here is what your group can get. **All submissions are due by Sunday, May 15.** Checks payable to PFLAG-Erie.

A text listing includes the name of your group/organization and optionally a short URL. If you don't have a domain and are on Facebook, we will include [Facebook] after your organization's name. It is perfectly fine if you don't have an online presence.

\$25 - text listing on shirt + 1 shirt

\$50 text on shirt + 2 shirts + banner ad in rotation on Erie Gay News web site for 3 months. (Banner ad includes weekly report of impressions and clicks sent by the system to an email address.)

\$100 text on shirt + 3 shirts + banner ad for 6 months

\$150 and up = text listing + 4 shirts + certificate of appreciation + banner ad for 6 months + table at the rally. (Tables at the picnic in June are free, but you must pre-register. Tables at the rally in August will have a small charge to cover the rental cost.)

This year's Pride events are a cooperative effort between several groups and individuals. We will be wearing these T-shirts at several events over the summer. **Please contact Michael Mahler at [info@eriegaynews.com](mailto:info@eriegaynews.com) or (814) 456-9833 for details.**

### Advocacy groups' "unprecedented" coalition to win marriage in NY state

*By Michael Cranford, Freedom to Marry*

Freedom to Marry has joined Empire State Pride Agenda, Human Rights Campaign, and Marriage Equality New York to form New Yorkers United for Marriage, a coalition whose goal is to enact a bill before the end of the current legislative session. The move comes as a super-majority of New Yorkers expressed support for the freedom to marry in a recent Sienna poll.

organizations, lots of good will, but not the truly united effort that has come together to work hand in glove with the governor and legislative leaders,” said Evan Wolfson, the president of Freedom to Marry.

Governor Andrew Cuomo is making passage of a marriage bill a key priority for his administration. The governor has spoken publicly several times in recent months affirming his commitment to the passage of a bill.

Advocates are expressing growing optimism that Mr. Cuomo can steer a marriage bill through the Legislature. They point to his passage of an on-time budget that cut spending without provoking political warfare — a modern miracle, by Albany standards; the governor’s historically high approval ratings; and polling that shows, for the first time, that a solid majority of New Yorkers support legalizing same-sex marriage.

Coalition efforts will include targeted television and radio ads, on-the-ground organizing in key districts, use of new media to mobilize supporters, and earned media focusing on the stories of real New York couples. *For more information visit [www.freedomtomarry.org](http://www.freedomtomarry.org)*

## www.LGBTsurvey.com

**About the Gay & Lesbian Community Survey® :** Tremendous strides toward full equality have been achieved by our communities over the past decade. There's Power in Our Pride. Power to make a difference!

Gay and lesbian survey studies have opened doors (and minds) in leading corporations and organizations, which in turn have recognized the value of their LGBT employees through the establishment of equal hiring policies and domestic partner benefits. This has been a catalyst, leading to sweeping changes in political and social inclusivity.

Demographic reports also influence marketing investment. Virtually absent until recently, we now see a growing variety of a products and services represented in gay media, celebrating our diversity. Ads keep LGBT publications and websites in business, serving their communities with independent news and information.

Beyond simply advertising, though, these companies support us in many ways, including sponsoring community events and funding community-based charities in order to earn our loyalty.

Taking an annual pulse on market trends through surveys helps demonstrate the LGBT community's growing power, and influences positive change.

**We respect your privacy.** All personal survey data is held securely by Community Marketing, Inc., a gay-owned and operated, independent market research and communications firm based in San Francisco, and will not be sold to third parties or used for marketing purposes. # Having Faith

By Rick Moyer

Pastor, Community United Church

I was talking to one of my parishioners recently who, in our conversation, exclaimed, "There's a lot of fear in our world today." He was referring to current natural disasters, high gas prices and the uncertain economy. His comments caused me to wonder if the world is really worse off today than it has been in the past.

While I was thinking about all the serious problems we face today, I found a reference to a magazine article. The opening paragraph of the article stated some of the fearful events that cause anxiety and fear in our world. The editorial put it this way: "Not in the lifetime of any person who reads this paper has there ever been so much grave and deep apprehension. Never has the future seemed so dark and incalculable." The editorial appeared in "Harper's Magazine." It was written in 1847!

I suppose every generation find reason to sug-

gest that they are living in the worst of times. The world can be a fearful, terrifying and uncomfortable place. Just when we think things are getting better, something happens that can cause us to be less than hopeful about the future.

This is especially true when it come to prejudice, discrimination and anger directed toward the LGBT community. For me, it is especially frustrating when the discrimination against gay persons comes from within the Christian church. The church is the one place where all people should be enthusiastically welcomed to find sanctuary and peace.

How can anyone read the Gospels without understanding that Jesus, himself, embraced all people? And, yet, Jesus' love for all humanity didn't exactly cause him to win friends. The opposite was true. The religious elite and the clergy of his day played a significant role in his crucifixion.

Thankfully, the Christian story doesn't end at the cross. There is still hope because there is the positive, victorious message of Easter. No matter how bad things seem, God has the power to give new life.

With all my frustration about the pride and prejudice that plague so many churches, I still live in the hope that, in the end, God wins!

The president of Inter-Church Ministries of Erie County recently wrote an excellent article for the Lenten Season. She wrote, "These holy days are more than a religious ritual. They are sacred realities with the power to change lives. We can experience healing and transformation ... joy and hopeful expectation."

It is true that we live in a world plagued by uncertainty, prejudice and fear. But I also believe that faith is greater than any fear. To have faith is to reach out to a higher power beyond ourselves. It is to believe beyond the shadow of any doubt, that nothing, in life or in death, will ever be able to separate us from the love of God.

#### Julia Calipo (D)

I am candidate Julia Calipo for Erie City Council 4 year term Democratic party. I have an assortment of letters from various groups which want my opinion on their issues. Erie Gays are one of the most important for me personally as my campaign is primarily to bring attention to the Civil rights violations and Discrimination here in Erie. There is no justice for wronged people here in Erie as the courts always side with governmental agencies and are biased. Most Erie Politicians only care about you or your issue when the camera is ON.

This is my new mission in life, politics, and I will be outspoken and never back down from battle. Wars were fought and lives lost for every right we have as a United States. It is a dishonor to our ancestors and a travesty to sit and let our life and civil dignities be trampled. Let me make this clear I support all rights, Gay, Black, Women, Marriage, Surrogacy, and especially parent rights. I am open minded and believe America is the land of the free, to practice whatever your desire need be in your life.

#### Patrick Cappabianca (D-Incumbent)

I would support this and do what I can. I have checked with state legislators about previous bill and found that it had been stalled by Republicans.

#### Bob Merski (D)

I have to look more at the specific language in the bill. As a matter of principle, I am for protecting people from discrimination in all forms. As a state bill, it would fall upon our State legislators to work on that. I would be willing to talk to them on behalf of my constituents.

#### Richard Wagner (D)

PA House Bill 300, which would amend the PA Human Relations Statute, is long overdue. Certainly a bill that has been existence since 1955 needs some updating. It has not kept up with America's openness and sensitivity in issues concerning sexual orientation or gender identity.

As an office holder I would support any activity by the state to change this outdated law, and would support a resolution to our state legislature stating that Erie City Council is in full support of updating the PA Human Relations Statute.

#### Jessica Horan-Kunco (D-Incumbent)

Yes. I would be willing to send letters of support to our State Representatives.

### Other

#### Julia Calipo (D)

I would do anything to preserve rights of citizens, picket, flyers, rallies, and marching to Washington if need be. We are on a precarious perch, the Republican party is taking over and actively denying rights and changing laws in their religious favor, terminating same sex marriage, insurance rights, and abortion rights, to name a few. If we listen we can hear the sound of our equalities slipping away with each law changed in republican favor. We the Democratic people must aggressively fight this by rising up ie, rally, blogging, bumper stickers, letters to the Editor, Senators, President, and most important GO VOTE.

I compare myself to Play-doh, ready to conform, and shape into the representative YOU want for Erie. Malleable and ready for new ideas for a better tomorrow. I do not have special training, and that my dear is the wonder, I offer the willingness to learn, perseverance, dedication, and ruthless pursuit of justice. Most important shhhh, I have not been corrupted by politics, I am not prejudiced or biased in favor of any company or organization, I have no financial backers and my vote has not been bought.

I beg you for a better Erie as there is beauty and endless possibility in industry and tourism. Lets not bulldoze but repair and restore our city. I see a better future without gouging taxes and fines out of citizens. I actively need backers to get the word out about my can-

# Voters Guide

didacy, so please raise your voice and let freedom ring!  
**Jessica Horan-Kunco (D-Incumbent)**

I will continue to ensure that no matter the budget constraints the city maintains its funding to the Erie County Human Relations Commission.

**Bob Merski (D)**

I believe in Erie. I want to make Erie a better place. Your experience of Erie is as good as the neighborhood you live in, so we need to strengthen our neighborhoods. I have a track record of doing that as a neighborhood watch leader. You can learn more about my vision for Erie by visiting my website - [www.bobmerski.com](http://www.bobmerski.com)

**Richard Wagner (D)**

I was born and raised in Erie, PA. I graduated from Penn State with a degree in Mechanical Engineering Technology in 1972. From 1965 through 1998 I had the privilege of being employed at Kaiser Aluminum where I worked my way up from a laborer to the manager of purchasing. Also during this time I owned and operated a 16 unit apartment building on West 9th Street in Erie. My experience in the private sector and my personal business experience has more than prepared me for the challenges that lie before me if I am elected to City Council. For the last three years I have served on the Zoning Hearing Board and am presently Chairman of the Zoning Hearing Board. This entry level position into government workings has made my desire to become part of the solution greater than it used to be.

Job growth in our city is nonexistent, and in my estimation is the biggest contributor to the poverty issue in our city. I will dedicate myself to organizing

the fractured economic development groups into one cohesive unit with a mutual goal in mind instead of the helter skelter nature of the way they do business now.

Infrastructure -- It's a shame that our roads are in the condition they are. Something has to be done to bring the roads in our town back up to a comfortable level. Dodging potholes shouldn't be some kind of a sport.

Finances -- We need to admit that we have a budget problem and we have to be more creative than floating bonds to cure our fiscal problems.

Taxes -- Our most valuable property is owned by our authorities and non-profits. 55% of the property in Erie pays for 100% of its operations. That has to change.

I will bring to government an openness and transparency that I believe is lacking. Decisions are being made outside of the council chambers. The caucus room is a place where administration officials lobby city council. That should have to be done in the light of day.
